THE PROBLEM

🔗 1 in 4 on probation must complete service hours*

Community service is a sentencing option for courts as an alternative to fines and a way to reduce penalties.

- ⚠ No centralized system to find verified opportunities
- ⚠ Confusing paper-based logging
- ⚠ Missed hours = legal consequences
- ⚠ Service failure due to lack of scheduling, tracking, and transport

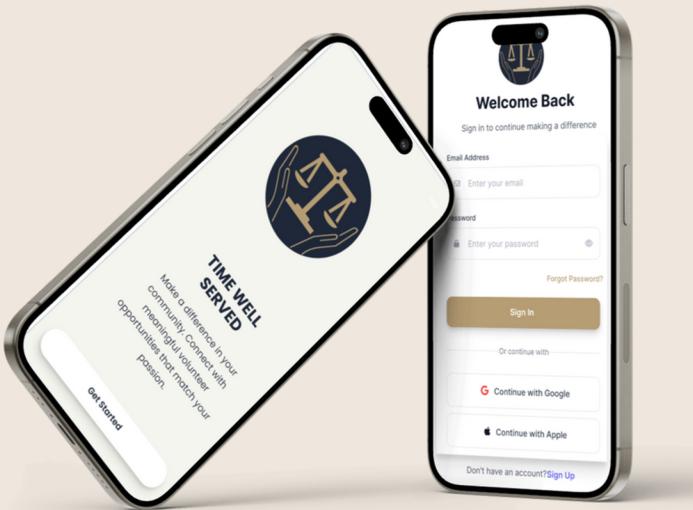

"Community service is meant to help people reintegrate, not fail because of broken tools"

Future Roadmap

Beta → Partnerships → Full launch

STEP 1

Launch pilot in Atlanta local nonprofits

STEP 2

Partner with courts to scale compliance platform

STEP 3

Add ML to auto-suggest ideal opportunities

STEP 4

Build trust between users, officers, and organizers
